

OLD MACDONALD'S TRAVELLING FARMS –HYGIENE & ANIMAL WELFARE

All animals presented by Old Macdonald's Farms are sourced from a network of reliable farmers. Many of our babies are orphans or are excess stock, who would become surplus to requirements if they didn't become one of Old Macdonald's Farms babies!

They are introduced to a caring and loving environment, which in turn produces a stress free calm animal with a friendly attitude.

It is a policy of Old Macdonald's Farms to carry out strict hygiene, vaccination programmes and worming regimes to ensure that our animals are presented at all times in excellent health.

Please remember to wash your hands after handling animals or use our anti-bacterial hand gel which is available at the entrance at all times.
